

Performance & Safety

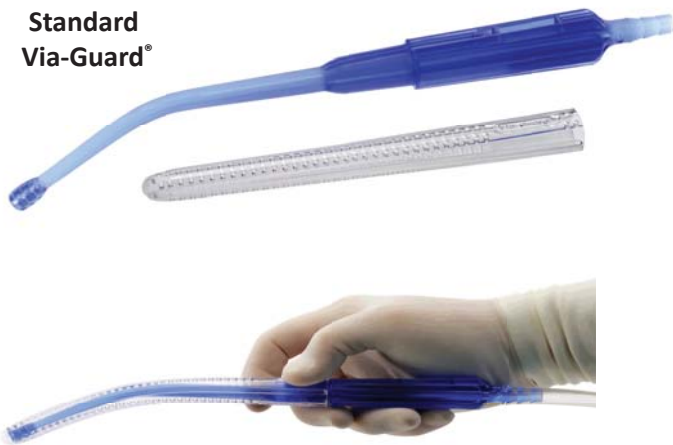

The Patented **Via-Guard®** surgical suction system provides high-flow, atraumatic Tip suction with rapid conversion to clog-free Poole suction. The **AdjustaFlo®** handle provides Dynamic Suction Control that regulates Poole suction to protect soft tissues.

Economy & High-Value Care

High-Value Care cost savings occur by reducing time expense and increasing ergonomic productivity. The **Via-Guard®** eliminates excess inventory items. Disposable single-patient-use improves infection control, increases safety, and reduces cost.
